Granted Survival – Key Factor?

- Materialistic vs. Postmaterialistic Values
i.e.
- Survival vs. Self-Expression/Freedom Values
(World Value Survey, 2000, Country Scores)
- Cultural Shift emerging among generations who have grown up taking survival for granted - it moves from Survival to Self-Expression, but the economic crisis strengthened the materialist value orientation
- CEE countries - survival values share decline, but still prevails

2000 vs. 2012 - is Survival taken for granted today?
